

Saeed Ba Wazir

Software engineer

Summary

As a passionate software engineering student at Fontys Hogeschool, I am committed to creating user-friendly applications that can make a positive impact in people's lives. Throughout my academic journey, I have gained practical skills in coding languages, database management, and web development, and have completed several projects that showcase my technical abilities. My pursuit of excellence extends beyond the classroom, as I am an avid boulderer and value perseverance and goal-setting as essential qualities in life and career. With a strong work ethic and a willingness to learn, I am confident in my ability to bring innovative ideas and solutions to any software development project. I am excited about the possibilities ahead and look forward to collaborating with like-minded individuals who share my passion for creating innovative and impactful software solutions.

Education

As a fourth-semester ICT & Software Engineering student at Fontys University with outstanding grades, I have completed the C# Advanced Topics and The Complete 2023 Web Development Bootcamp certificates, gaining knowledge in advanced programming concepts and hands-on experience in building responsive web applications. Additionally, I have worked on a project for Driessen that integrated with the Azure, providing exposure to real-world application development and learning opportunities. Currently, I am studying Artificial Intelligence as part of my curriculum and continue to expand my knowledge and skills through self-study and personal projects in my free time. This experience has allowed me to gain practical experience in software development methodologies and team collaboration, while contributing to the development of a successful project.

Skills

SQL, Python, Flask,
Java, Spring boot,
C#, .NET
JavaScript, node.js, React.js,
C, Git, Docker, Agile
